Author Bio:

Gabrielle Orr has been personally and professionally connected to physical and spiritual healing throughout her life. Born in Germany, she underwent several surgeries very early in life due to a deformed hip. It was during these times that she had her very first conscious experience with her Akashic Records.

In her native country, she worked with mentally and physically disabled children, teenagers and counseled their families. When she was in her early twenties, her husband had been faultlessly involved in a car accident, which resulted in a spinal cord injury between the C5 – C6 vertebrae. The couple's strong belief in self-healing resulted in a level of mobility that was unheard of by the medical society. Eventually the medical research center for spinal cord injuries at the Jackson Memorial Hospital in Miami invited the young couple to the United States to partake in their research program. The prolonged visits to the US eventually lead to a permanent relocation to US.

Since then Gabrielle has been relentlessly interested in all forms of healing and self-development on all levels and has facilitated thousands of Akashic Record readings over the past 25 years. Today her focus is mainly on teaching others how to connect to their own higher power in her workshops internationally.
